Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Statements

The Shareholders Orascom Construction Limited

Introduction

We have reviewed the accompanying 31 March 2018 condensed consolidated interim financial statements of Orascom Construction Limited ("the Company") and its subsidiaries ("collectively referred to as the Group"), which comprises:

- the condensed consolidated statement of financial position as at 31 March 2018;
- the condensed consolidated statements of profit or loss and other comprehensive income for the three-month period ended 31 March 2018;
- the condensed consolidated statement of changes in equity for the threemonth period ended 31 March 2018;
- the condensed consolidated statement of cash flows for the three-month period ended 31 March 2018; and
- notes to the condensed consolidated interim financial statements.

Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Orascom Construction Limited Independent Auditors' Report on Review of Condensed Consolidated Interim Financial Statements 31 March 2018

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 31 March 2018 condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

The notes on pages 7 to 31 are an integral part of these interim consolidated financial statements.

1. General

Orascom Construction Limited ('OCL') is a company limited by shares, incorporated with registered number 1752 in the Dubai International Financial Center (DIFC) on 18 January 2015 with its head office located at Gate Village-Building 3, DIFC, Dubai, UAE. OCL is dual listed on the NASDAQ Dubai and the Egyptian Stock Exchange. The interim consolidated financial statements for the three months period ended 31 March 2018 comprise the financial statements of OCL, its subsidiaries and joint operations (together referred to as the 'Group') and the Group's interests in associates and joint ventures.

OCL is primarily engaged as an international engineering and construction contractor focused on large-scale infrastructure, complex industrial and high-end commercial projects in the United States, Middle East, Africa and Central Asia for public and private clients.

2. Basis of preparation

2.1 General

The interim consolidated financial statements for the three months period ended 31 March 2018 have been prepared in accordance with IAS 34 'Interim Financial Reporting' and do not include all the information and disclosures required in the annual financial statements. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since 1 January 2018.

The interim consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended 31 December 2017. The accounting principles used are the same as those used in the consolidated financial statements for the year ended 31 December 2017, except as explained below in note 3.

The consolidated financial statements have been prepared on the historical cost basis, except when otherwise indicated.

The financial year of OCL commences on 1 January and ends on 31 December.

These consolidated financial statements are presented in US dollars ('USD'), which is OCL's presentation currency. All values are rounded to the nearest tenth million ("in millions of USD"), except when stated otherwise.

The consolidated financial statements have been authorised for issue by the Company's Board of Directors on 21 May 2018.

3. New accounting standards and policies

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2017.

The changes in accounting policies are also expected to be reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2018.

The Group has initially adopted IFRS 15 Revenue from Contracts with Customers and IFRS 9 Financial Instruments from 1 January 2018.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaced IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations.

Under IFRS 15, revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time – requires judgement

Claims and variations are included in the contract price when they are approved by the parties to the contract. Claims and variations are 'approved' when it creates legally enforceable rights and obligations on the parties to the contract. This approval may be written, oral or implied by customary business practices, and should be legally enforceable.

Variable considerations are included in the contract price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. At each reporting

date, the Group updates the estimated contract price - including its assessment of whether an estimate of variable consideration is constrained - for the circumstances present at the reporting date and the changes in circumstances that occurred during the reporting period.

There is no material impact on the Group's financial information from applying IFRS 15.

IFRS 9 Financial Instruments

IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement.

The details of new significant accounting policies and the nature and effect of the changes to previous accounting policies are set out below.

i. Classification and measurement of financial assets and financial liabilities

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it eliminates the previous IAS 39 categories for financial assets of held to maturity, loans and receivables and available for sale.

The adoption of IFRS 9 has not had a significant effect on the Group's accounting policies related to financial liabilities and derivative financial instruments. The impact of IFRS 9 on the classification and measurement of financial assets is set out below.

Under IFRS 9, on initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or fair value through profit or loss (FVTPL). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Subsequent measurement – financial assets Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses (see accounting policy on impairment below). Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

ii. Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognised earlier than under IAS 39. The financial assets at amortised cost consist of trade receivables, cash and cash equivalents, and corporate debt securities.

Under IFRS 9, loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Group has elected to measure loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information. The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 90 days past due.

The Group considers a financial asset to be in default when:

- the trade receivable is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

Measurement of ECLs:

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'creditimpaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of impairment

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI, instead of reducing the carrying amount of the asset.

Impairment losses related to trade and other receivables, including contract assets, are presented separately in the statement of profit or loss and OCI.

Group did not have a significant impact on the presentation adopted in the statement of financial position by adopting IFRS 9. Also, there are no change in presentation of impairment losses on other financial assets in the statement of profit or loss and OCI.

There is no material impact on the Group's financial information from applying IFRS 9.

4. Critical accounting judgement, estimates and assumptions

There were no significant changes in critical accounting judgement, estimates and assumptions compared to the interim consolidated financial statements for the year ended 31 December 2017.

5. Financial risk and capital management

Overview

The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

These risks arise from exposures that occur in the normal course of business and are managed on a consolidated company basis. This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

Senior management has an overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee is assisted in its oversight role by the Internal Audit Department. The Internal Audit Department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

5.1 Exposure to credit risk

The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. The carrying amount of financial assets represents the maximum credit exposure. With respect to transactions with financial institutions, the group sets limits to the credit worthiness rating of the counterparty. The maximum credit risk is the carrying amount of financial instruments, for an overview reference is made to the tables financial instruments by category.

The major exposure to credit risk at the reporting date was as follows:

\$ millions	Note	31 March 2018	31 December 2017
Trade and other receivables (excluding prepayments)	(8)	1,151.2	1,149.4
Contract work in progress	(12)	540.3	488.8
Cash and cash equivalents (excluding cash on hand)	(13)	408.7	433.0
Total		2,100.2	2,071.2

The major exposure to credit risk for trade and other receivables by geographic region was as follows:

\$ millions	31 March 2018	31 December 2017
Middle East and Africa	805.4	768.5
Asia and Oceania	160.3	165.3
Europe and United States	185.5	215.6
Total	1,151.2	1,149.4

5.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. This is also safeguarded by using multiple financial institutions in order the mitigate any concentration of liquidity risk.

The availability of cash is monitored internally at Group level, on an ongoing basis by the corporate treasury department. In addition management prepared at closing date a cash flow projection to assess the ability of the Group to meet its obligations.

The following are the contractual maturities of financial liabilities, including estimated interest payments and exclude the impact of netting arrangements.

Total		1,891.9	1,905.9	1,725.6	133.5	46.8
Advanced payments from construction contracts		553.6	553.6	553.6	-	-
Trade and other payables	(18)	1,056.1	1,056.1	1,014.1	-	42.0
Loans and borrowings	(17)	282.2	296.2	157.9	133.5	4.8
Financial liabilities						
\$ millions	Note	amount	cash flow	or less	months	1–5 years
At 31 March 2018		Carrying	Contractual	6 months	6–12	
		.,	.,	.,		
Total		1,866.8	1,879.6	1,704.4	117.8	57.4
Advanced payments from construction contracts		484.7	484.7	484.7	-	-
Trade and other payables	(18)	1,121.4	1,121.4	1,076.5	-	44.9
_oans and borrowings	(17)	260.7	273.5	143.2	117.8	12.5
Financial liabilities						
\$ millions	Note	amount	cash flow	or less	months	1–5 years
At 31 December 2017		Carrying	Contractual	6 months	6–12	

The interest on floating rate loans and borrowings is based on forward interest rates at period-end. This interest rate may change as the market interest rate changes.

5.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, commodity prices and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is exposed to foreign currency risk arising in separate ways:

Foreign exchange translation exposure

Due to the Group's international presence, OCL's Financial Statements are exposed to foreign exchange fluctuations as these affect the

translation of the subsidiaries' assets and liabilities presented in foreign currencies to the US dollar (the Group's presentation currency). The currencies concerned are mainly Egyptian Pound, Algerian Dinar and Euro. Foreign exchange translation exposure is considered a part of doing business on an international level; this risk is not actively managed, nor is it hedged.

OCL is not exposed to Saudi Riyal, UAE Dirham and Qatar Riyal. These currencies are pegged to the US dollar.

Foreign exchange transaction exposure

The Group entities predominantly execute their activities in their respective functional currencies. Some Group subsidiaries are, however, exposed to foreign currency risks in connection with the scheduled payments in currencies that are not their functional currencies. In general this relates to foreign currency denominated supplier payables due to project procurement, capital expenditures and receivables. The Group monitors the exposure to foreign currency risk arising from operating activities.

The Group is exposed to foreign exchange transaction exposure to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of Group companies. The functional currencies of Group companies are primarily Euro, US Dollar, Egyptian Pound, Saudi Riyal, Algerian Dinar and UAE Dirham.

The Group uses foreign exchange contracts to manage its foreign exchange transaction exposure. No hedge accounting is applied; therefore all fair value changes are recognised in profit and loss.

The summary of quantitative data about the Group's exposure to foreign exchange transaction exposure provided to management of the Group based on its risk management policy for the main currencies was as follows:

At 31 December 2017 \$ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	(1.3)	3.8
Trade and other receivables	45.2	185.5
Trade and other payables	(70.7)	(136.4)
At 31 March 2018 \$ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	7.7	(33.0)
Trade and other receivables	40.8	356.7

(72.1)

(133.8)

Significant rates

Trade and other payables

The following significant exchange rates applied during the three months period ended 31 March 2018:

	Average 2018	Closing 31 March 2018	Opening 1 January 2018
Egyptian pound	0.0566	0.0566	0.0563
Saudi riyal	0.2666	0.2667	0.2666
Arabic Emirates Dirham	0.2723	0.2723	0.2723
Algerian Dinar	0.0088	0.0088	0.0087
Euro	1.2250	1.2324	1.2005

The following tables demonstrate the sensitivity to a reasonably possible change in EUR and EGP exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities, including inter company positions. The Group's exposure to foreign currency changes for all other currencies is not material.

As of 31 March 2018, if the functional currencies had strengthened/weakened by 10 percent against the Euro and 10 percent against the Egyptian Pound with all other variables held constant, the translation of foreign currency receivables, payables and loans and borrowings that would have resulted in an increase/decrease of USD 16.6 million of the profit of the three months period ended 31 March 2018 (31 December 2017: USD 2.6 million)

31 December 2017 \$ millions	Change in FX rate*	Effect on profit before tax**	Effect on equity**
EUR - USD	10%	2.7	39.8
EGP - USD	10%	5.3	-

31 March 2018 \$ millions	Change in FX rate*	Effect on profit before tax**	Effect on equity**
EUR - USD	10%	2.4	40.3
EGP - USD	10%	19.0	-

* Determined based on the volatility of last year for the respective currencies

** Effects are displayed in absolute amounts

Interest rate risk

The Group's cash flow interest rate risks arise from the exposure to variability in future cash flows of floating rate financial instruments. The Group reviews its exposure in light of global interest rate environment after consulting with a consortium of global banks.

The Group calculates the impact on profit or loss of a defined interest rate shift. The same interest rate shift is used for all currencies. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

\$ millions	In basis points	31 March 2018	31 December 2017
Effect on profit before tax for the coming year	+100 bps	(1.4)	(1.3)
	- 100 bps	1.4	1.3

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly lower volatility than in prior years.

Categories of financial instruments

	31 M		1 2018	31 Dec	ember 2017
	Note	Loans and receivables at amortized cost	Derivatives at fair value	Loans and receivables at amortized cost	Derivatives at fair value
Assets					
Trade and other receivables	(8)	1,165.1	-	1,162.5	-
Cash and cash equivalents	(13)	410.1	-	434.2	-
Total		1,575.2	-	1,596.7	-
Liabilities					
Loans and borrowings	(17)	282.2	-	260.7	-
Trade and other payables	(18)	1,055.9	0.2	1,121.0	0.4
Advanced payments construction contracts		553.6	-	484.7	-
Total		1,891.7	0.2	1,866.4	0.4

All financial instruments are in the fair value hierarchy category level 2, there were no transfers between the fair value hierarchy categories.

5.4 Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of ordinary shares, share premium retained earnings and non-controlling interest of the Group. The Board of Directors monitors the return on capital as well as the level of dividends to ordinary shareholders. The Group's net debt to equity ratio at the reporting date was as follows:

\$ millions	Note	31 March 2018	31 December 2017
Loans and borrowings	(17)	282.2	260.7
Less: cash and cash equivalents	(13)	410.1	434.2
Net debt		(127.9)	(173.5)
Total equity		429.5	402.5
Net debt to equity ratio		(0.30)	(0.43)

6. Property plant and equipment

\$ millions	Land	Buildings	Equipment	Fixtures and fittings	Under construction	Total
Cost	5.9	71.9	260.3	104.4	4.2	446.7

At 1 January 2018	5.9	45.9	66.9	32.5	4.2	155.4
Movements in the carrying amount:						
Additions purchased during the period	-	-	4.5	11.4	1.4	17.3
Disposals	-	-	(0.2)	(0.1)	-	(0.3)
Depreciation	-	(0.7)	(5.1)	(3.5)	-	(9.3)
Transfers	-	0.6	0.6	-	(1.2)	-
Effect of movement in exchange rates	0.1	0.1	0.4	0.3	-	0.9
At 31 March 2018	0.1	-	0.2	8.1	0.2	8.6
Cost	6.0	72.8	258.9	115.4	4.4	457.5
Accumulated depreciation	-	(26.9)	(191.8)	(74.8)	-	(293.5)
At 31 March 2018	6.0	45.9	67.1	40.6	4.4	164.0

The difference between the fair market value and the book value for the land and the buildings has been assessed in the third and fourth quarters of 2017. The fair market value valuations have been performed by an external valuator in 2017 using an open market value basis. As of 31 December 2017, The fair market value exceed the book value of the land and the buildings for a total amount of USD 101.6 million. If OCL would change the accounting principles for the land and the buildings to fair value, equity as at 31 December 2017, would increase with USD 78.7 million and the deferred tax liability with USD 22.9 million.

The fair value disclosed above is categorized into Level 2 in the fair value hierarchy. The fair values had been determined mainly using the market comparison method which take in to consideration the comparable prices in the market.

7. Goodwill

\$ millions	Goodwill
Cost	13.8
At 1 January 2018	13.8
Movements in the carrying amount:	
Additions	-
Impairment	-
At 31 March 2018	-
Cost	13.8
Impairment	-
At 31 March 2018	13.8

On 31 July 2012, the Group acquired the Weitz Company LLC, a United States general contractor based in Des Moines, Iowa, resulting in USD 12.4 million of goodwill. The transaction was completed on 12 December 2012. On 2 April 2015, the Group acquired Alico resulting in USD 1.4 million of goodwill.

Goodwill is tested for impairment in the fourth quarter of the year.

8. Trade and other receivables

\$ millions	31 March 2018	31 December 2017
Trade receivables (gross)	613.3	608.1
Allowance for trade receivables	(27.9)	(27.1)
Trade receivables (net)	585.4	581.0
Trade receivables due from related parties (Note 27)	33.5	41.9
Prepayments	13.9	13.1
Other tax receivable	72.4	65.5
Supplier advanced payments	152.1	126.0
Other investments	5.9	6.0
Retentions	181.5	209.6
Other receivables	120.4	119.4
Total	1,165.1	1,162.5
Non-current	16.0	15.8
Current	1,149.1	1,146.7
Total	1,165.1	1,162.5

The carrying amount of 'Trade and other receivables' as at 31 March 2018 approximates its fair value.

Prepayments relate for the largest part to the amounts prepaid to sub-contractors, retentions related for the largest part to amounts withheld by customers resulting from contractual clauses.

The aging of gross trade receivables at the reporting date is as follows:

\$ millions	31 March 2018	31 December 2017
Neither past due nor impaired	386.6	377.7
Past due 1 - 30 days	30.8	54.8
Past due 31 - 90 days	40.9	47.6
Past due 91 - 360 days	83.9	86.2
More than 360 days	71.1	41.8
Total	613.3	608.1

Management believes that the unimpaired amounts that are past due by more than 30 days are collectible in full, based on historic payment behavior and extensive analysis of customer credit risk, including underlying customers' credit ratings if they are available.

The movement in the allowance for impairment in respect of trade receivables during the three months period ended 31 March 2018 was as follows:

\$ millions	2018	2017
At 1 January	(27.1)	(32.8)
Provision formed	(0.3)	-
Exchange rates differences	(0.5)	0.3
At 31 March	(27.9)	(32.5)

9. Equity accounted investees

The following table shows the movement in the carrying amount of the Group's associates and joint ventures:

\$ millions	2018	2017
At 1 January	421.8	371.4
Share in results	7.4	55.6
Dividends	-	(30.0)
Effect of movement in exchange rates	(2.1)	24.8
At 31 March / 31 December	427.1	421.8

The entity disclosed under 'Equity accounted investees' that is significant to the Group is BESIX.

BESIX Group (BESIX)

Established in 1909 in Belgium, BESIX is a global multi-service group offering engineering, procurement and construction (EPC) services. BESIX operates in the construction, real estate and concession sectors in 15 countries focusing on Europe, Africa, the Middle East and Australia. Their core construction competencies include buildings, infrastructure and environmental projects, industrial civil engineering, maritime and port works and real estate development. In addition to EPC services, BESIX is active in real estate development and holds concessions in several Public Private Partnerships (PPP) and design, build, finance, and maintain/operate (DBFM) contracts, through which it develops, operates and maintains projects.

The below table summarizes the financial information of BESIX based on the percentage of interest the Group has in it:

BESIX Group 50% \$ millions	2018	2017
Assets	1,419.9	1,434.0
Liabilities	(1,016.7)	(1,035.8)
Net assets at 31 March / 31 December	403.2	398.2
Construction revenue	358.9	256.8
Construction cost	(351.7)	(246.3)
Net profit at 31 March	7.2	10.5

The Group has interests in a number of equity accounted investees including the following:

Name	Parent	Country	Participation %
BESIX Group	OC IHC3 B.V.	Belgium	50.0
Medrail Ltd.	Orascom Construction Holding Cyprus	UAE	50.0
Egyptian Gypsum Company	UHC	Egypt	28.3
Sidra Medical Center (see note 25)	Contrack Cyprus	Qatar	45.0
URS Contrack Pacer Forge IV	Contrack Watts Inc	UAE	45.0
Watts - Webcor Obayashi	Contrack Watts Inc	USA	34.0
RW Constructors LLC	The Weitz Group	USA	50.0
Alexander - Weitz	The Weitz Group	USA	49.0
National Pipe Company	OCI Construction Egypt OCI Egypt	Egypt	40.0
El Yamama	OCI Construction	KSA	50.0
Orasqualia, Orasqualia for Construction S.A.E. and Orasqualia for Maintenance	OCI Egypt	Egypt	50.0

The following table summarizes the financial information of the Orascom Construction Group's share on equity accounted investees including BESIX, El Yamama, National Pipe Company, all of Weitz's associates, Egyptian Gypsum Company and Sidra Medical Centre:

\$ millions	2018	2017
Assets	1,473.1	1,488.2
Liabilities	(1,046.0)	(1,066.4)
Net assets at 31 March / 31 December	427.1	421.8
Income	361.9	258.9
Expense	(354.5)	(249.9)
Net profit at 31 March	7.4	9.0

Transaction between Group entities and associates / joint ventures

There are no significant transactions between entities of the group and the associates / joint ventures, except for the investments in and the dividends received from these associates and joint ventures.

10. Income taxes

10.1 Income tax in the statement of profit or loss

The income tax on profit before income tax amounts to USD 13.8 million (31 March 2017: USD 25.0 million) expense and can be summarized as follows:

\$ millions	31 March 2018	31 March 2017
Current tax	(14.4)	(13.8)
Deferred tax	0.6	(11.2)
Total income tax in profit or loss	(13.8)	(25.0)

10.2 Reconciliation of effective tax rate

OCL's operations are subject to income taxes in various foreign jurisdictions, the statutory income tax rates vary from 0.0% to 28.0%.

Reconciliation of the effective tax rate can be summarized as follows:

\$ millions	March 2018	%	March 2017	%
Profit before income tax	48.8		56.5	
Tax calculated at weighted average group tax rate	(15.1)	30.9	(9.3)	16.5
Reduction (recognised) in deferred tax asset	0.6	(1.2)	(11.2)	19.8
Other	0.7	(1.4)	(4.5)	8.0
Total income tax in profit or loss	(13.8)	28.3	(25.0)	44.2

10.3 Deferred income tax assets and liabilities

The majority of the deferred tax assets of USD 35.1 million (31 December 2017: USD 34.5 million) relate to carried forward tax losses. The carried forward losses recognized in the statement of financial position is expected to be realized in the period 2018-2021.

11. Inventory

\$ millions	31 March 2018	31 December 2017
Finished goods	6.5	4.9
Raw materials and consumables	204.6	186.7
Fuels and others	6.2	13.8
Real estate	26.0	26.8
Total	243.3	232.2

During the three months period ended 31 March 2018, the total write-downs amount to USD 9.8 million (31 December 2017: USD 10.8 million), which all related to raw materials.

The real estate relates to the land owned by Suez industrial Development Company in Egypt, which owns and develops an industrial park.

12. Contracts work in progress / billing in excess of construction contracts

\$ millions	31 March 2018	31 December 2017
Costs incurred on incomplete contracts (including estimated earnings)	15,652.5	15,574.6
Less: billings to date (Net)	(15,637.6)	(15,615.5)
Total	14.9	(40.9)
Presented in the consolidated statements of financial position as follows:		
Construction contracts in progress - current assets	540.3	488.8
Billing in excess on construction contracts - current liabilities	(525.4)	(529.7)
Total	14.9	(40.9)

13. Cash and cash equivalents

\$ millions	31 March 2018	31 December 2017
Cash on hand	1.4	1.2
Bank balances	367.2	392.7
Restricted funds	18.9	19.4
Restricted cash	22.6	20.9
Total	410.1	434.2

Restricted funds

The restricted amounts mostly relate to letters of credits of Orascom E&C (USD 4.7 million) and Alico (USD 0.3 million) and to letters of guarantee of OC (USD 13.0 million), Alico (USD 0.1 million), United Holding Company (USD 0.7 million) and other Group entities (USD 0.1 million).

Restricted cash

Restricted cash relates to amounts withheld in relation to amounts restricted for use by Orascom Saudi for an amount of USD 2.1 million, and USD 20.5 million pledged as collateral against loans.

14. Share capital

The movements in the number of shares (nominal value USD 1 per share) can be summarized as follows:

	2018	2017
At 1 January Shares reduction	116,761,379	117,761,379 (1,000,000)
At 31 March / 31 December - fully paid	116,761,379	116,761,379
At 31 March / 31 December (in millions of USD)	116.8	116.8

The shareholders of the Company at the Extraordinary General Meeting (EGM) held on 9 May 2018, approved the resolution passed by the Board of Directors for reducing the share premium of the Company with USD 281.3 million.

15. Reserves

\$ millions	Currency translation	Treasury shares	Total

Other	-	Multiple rates	-	0.2	-	2.8	3.0
Total as of 31 March 2018				4.2	62.1	215.9	282.2

Information about the Group's exposure to interest rate, foreign currency and liquidity risk is disclosed in the financial risk and capital management paragraph in Note 5. The fair value of loans and borrowings approximates the carrying amount.

Certain covenants apply to the aforementioned borrowings.

18. Trade and other payables

	31 March	31 December
\$ millions	2018	2017
Trade payables	489.9	494.9
Trade payables due to related party (Note 27)	4.7	5.0
Other payables	105.0	100.6
Accrued expenses	313.3	366.2
Deferred revenues	1.7	1.5
Other tax payables	8.1	5.8
Derivative financial instruments	0.2	0.4
Retentions payables	130.9	144.9
Employee benefit payables	2.3	2.1
Total	1,056.1	1,121.4
Non-current	42.0	44.9
Current	1,014.1	1,076.5
Total	1,056.1	1,121.4

Information about the Group's exposure to currency and liquidity risk is included in Note 5. The carrying amount of 'Trade and other payables' approximated the fair value.

Retentions payable relate to amounts withheld from sub-contractors.

Derivative financial instruments include the following:

Foreign exchange contracts

The group entered into forward exchange contracts to hedge its currency risk exposure to the Japanese Yen in certain projects. As at 31 March 2018 the remaining notional amounts of these contracts are USD 3.1 million related to the YEN. The foreign exchange contracts have a fair value of USD 0.2 million. The Group does not apply hedge accounting, therefore all fair value changes related to these financial instruments are recognized in profit and loss.

19. Provisions

\$ millions	Warranties	Onerous contracts	Other (including claims)	Total
At 1 January 2017	13.2	63.2	39.8	116.2
Provision formed	5.7	-	10.1	15.8

At 31 March 2018	15.4	13.4	30.9	59.7

Warranties

The warranties are based on historical warranty data and a weighting of possible outcomes against their associated probabilities.

Other (including claims)

The Group is involved in various litigations and project related disputes. In cases where it is probable that the outcome of the proceedings will be unfavorable, and the financial outcome can be measured reliably, a provision has been recognized. Reference is made to Note 25 for detailed information with respect to major ongoing litigations and claims.

20. Cost of sales and selling, general and administrative expenses

i. Expenses by nature		
\$ millions	31 March 2018	31 March 2017
Changes in raw materials and consumables, finished goods and work in progress	544.4	869.4
Employee benefit expenses (ii)	133.4	122.9
Depreciation, amortization	9.3	9.3
Maintenance and repairs	4.2	4.8
Consultancy expenses	0.8	0.8
Other	17.8	12.4
Total	709.9	1,019.6

The expenses by nature comprise 'cost of sales' and 'selling and general and administrative expenses'.

ii.Employee benefit expenses

\$ millions	31 March 2018	31 March 2017
Wages and salaries	118.7	109.9
Social securities	1.0	0.9
Employee profit sharing	1.7	0.5
Pension cost	1.7	1.4
Other employee expenses	10.3	10.2
Total	133.4	122.9

During the three months period ended 31 March 2018, the average number of staff employed in the Group converted into full-time equivalents amounted to 24,194 permanent and 47,562 temporary employees.

21. Other income

\$ millions	31 March 2018	31 March 2017
Net gain on sale of property, plant and equipment	0.2	0.4
Scrap and other	3.9	1.3
Total	4.1	1.7

22. Net finance cost

\$ millions	31 March 2018	31 March 2017
Interest income on financial assets measured at amortized cost	4.2	5.7
Foreign exchange gain	1.4	3.9
Finance income	5.6	9.6
Interest expense on financial liabilities measured at amortized cost	(4.4)	(4.4)
Fair value loss on derivatives	(0.1)	(1.1)
Foreign exchange loss	(10.7)	(4.4)
Finance cost	(15.2)	(9.9)
Net finance cost recognized in profit or loss	(9.6)	(0.3)

The above finance income and finance cost include the following interest income and expense in respect of assets (liabilities) not measured at fair value through profit or loss:

\$ millions	31 March 2018	31 March 2017
Total interest income on financial assets	4.2	5.7
Total interest expense on financial liabilities	(4.4)	(4.4)

23. Earnings per share

i. Basic

	31 March 2018	31 March 2017

Number of ordinary share (million)	116.8	116.8
Basic earnings per ordinary share	0.27	0.24

24. Segment reporting

The Group determines and presents operating segments on the information that internally is provided to the Chief Executive Officer during the period. The Group has three reportable segments, as described below. Each of the segments is managed separately because they

require different operating strategies and use their own assets and employees. Factors used to identify The Group's reportable segments, are a combination of factors and whether operating segments have been aggregated and types of products and services from which each reportable segment derives its revenues.

Business information for the period ended 31 March / 31 December 2017

Segment revenues have been presented based on the location of the entity which is managing the contracts.

BESIX is presented as part of 'equity accounted investees', therefore in the above schedule only the income from equity accounted investees and the asset value are reflected. For further information with respect to liabilities, revenues and cost, reference is made to note 9.

The geographic information above analyses the Group's revenue and non-current assets by the Company where the activities are being operated. The Orascom Construction Group has customers that represent 10 percent or more of revenues:

Percentage	31 March 2018	31 March 2017
Egyptian Government	50%	45%
US Federal Government	10%	6%
OCI N.V. Group	9%	18%

25. Contingencies

25.1 Contingent liabilities

25.1.1 Letters of guarantee / letters of credit

Letters of guarantee issued by banks in favor of others as at 31 March 2018 amount to USD 1,262.1 million (31 December 2017: USD 1,312.6). Outstanding letters of credit as at 31 March 2018 (uncovered portion) amount to USD 42.4 million (31 December 2017: USD 51.5 million).

Certain of our sub-holdings have put general performance guarantees for the execution of more significant projects by our subsidiaries.

As of 31 March 2018, mechanic liens have been received in respect of two of our US projects for a total of USD 67.6 million ("31 December 2017: USD 95.8 million").

25.1.2 Litigations and claims

In the normal course of business, the Group entities and joint ventures are involved in some arbitration or court cases as defendants or claimants. These litigations are carefully monitored by the entities' management and legal counsels, and are regularly assessed with due consideration for possible insurance coverage and recourse rights on third parties. OCL does not expect these proceedings to result in liabilities that have a material effect on the company's financial position. In cases where it is probable that the outcome of the proceedings will be unfavorable, and the financial outcome can be measured reliably, a provision has been recognized in the financial statements which is disclosed in note 19 'Provisions'. It should be understood that, in light of possible future developments, such as (a) potential additional lawsuits, (b) possible future settlements, and (c) rulings or judgments in pending lawsuits, certain cases may result in additional liabilities and related costs. At this point in time, OCL cannot estimate any additional amount of loss or range of loss in excess of the recorded amounts with sufficient certainty to allow such amount or range of amounts to be meaningful. Moreover, if and to the extent that the contingent liabilities materialize, they are typically paid over a number of years and the timing of such payments cannot be predicted with confidence. While the outcome of said the cases, claims and disputes cannot be predicted with certainty, we believe, based upon legal advice and information received, that the final outcome will not materially affect our consolidated financial position but could be material to our results of operations or cash flows in any one accounting period.

25.1.3 Administrative court against Suez Industrial Development Company

A decision was issued against Suez Industrial Development Company, which operates in the field of land development in the North West of the Gulf of Suez in Egypt, for the cessation of dealings on any of its allocated plots of land as of mid-November 2011 until investigations conducted by the Public Fund Prosecution and Military Prosecution against its former employees, and relating to those lands, were concluded. On 28 May 2012, the company submitted a request to the Dispute Settlement Committee at the General Authority of Investment and Free Zones ("GAFI") to cancel the decision. On 22 April 2013, the Dispute Settlement Committee issued a decision verifying the land contracts entered into by the company and ratified by Suez Governorate. On May 2013, the company was notified of this decision by the Council of Ministers.

In parallel proceedings, on 25 July 2012, the decision issued by the Prime Minister to withdraw the plot of land allocated to the company was challenged before the Administrative Court. The hearing was postponed to 2 November 2013, at which the case was then referred to the 8th District court on grounds of jurisdiction. On 4 March 2014, the case was referred to the Commissioner to prepare a report. On 15 November 2016, the court ruled of its incompetency, and the case was referred to the administrative court in Ismailia.

For the Suez case a reliable outcome of the financial impact cannot be estimated. Given the positive decision of the Dispute Settlement Committee, management believe that there will be an out of court settlement.

25.1.4 Sidra Medical Center

The contract for the design and build of the Sidra Medical and Research Centre in Doha, Qatar, was awarded by the Qatar Foundation for Education, Science & Community Development in February 2008 to the associate owned by Obrascón Huarte Lain (55%) and Contrack (45%), for a total contract value of approximately USD 2.4 billion. The project is more than 95% complete and is not part of the Construction Group's backlog as the project is accounted for under the equity method.

In July 2014, the consortium received a Notice of Termination from the Qatar Foundation for Education, Science & Community Development (the Foundation). On 23 July 2014, the Foundation commenced arbitration proceedings against the associate by serving a Request for Arbitration with the ICC (London) dated 23 July 2014. Procedural hearings and expert meetings took place, with the substantive hearing being held 23 October 2017 to 17 November 2017. In February 2018, the Arbitral Tribunal issued a partial award in respect of certain variation claims and defects, and further agreed that questions of quantum as well as the remaining matters in dispute will be addressed in three long upcoming hearings to be held in April/May 2018, October/November 2018 and March/April 2019. On 31 March 2018, OCL valued its interest in the associate at nil and carries USD 0.8 million asset for expected costs including legal fees.

In August 2017, the Foundation again served a Request for Arbitration, this time against OCI SAE with the ICC Court of Arbitration in London ("OCI Arbitration"). The claims made by the Foundation in this new arbitration arise in connection with a Parent Company Guarantee (the "PCG") issued by OCI SAE on 7 February 2018. The Foundation alleged that the terms of the PCG protect it in respect of liabilities and obligations of Contrack (Cyprus) Limited on the Project. The Foundation has not yet specified the amount/s that it claims against OCI under the PCG. OCI filed its Answer to the Request for Arbitration on 9 November 2017 asserting lack of jurisdiction, premature and inadmissible claim, and that the PCG has expired. The Terms of Reference were signed on 22 January 2018, and the Tribunal issued its first Procedural Order on 12 March 2018. The Tribunal will first determine whether it has jurisdiction in a hearing set for July 2018. In the meantime, the Foundation has been directed to file its Statement of Case in April 2018, and OCI has been directed to file its Defence in June 2018. In the event OCI's jurisdictional objections are not upheld at the July 2018 hearing, the Tribunal will issue further procedural orders regarding the balance of the dispute.

25.1.5 Iowa Fertilizer Project:

MEI filed proceedings before the courts of Davenport, Iowa, against OEC regarding part of the scope of works of the Downstream Plant at the Iowa fertilizer project. The claim was filed in relation to the Limited Notice to Proceed, where MEI seeks recovery of outstanding applications for payment. OEC denies it had any obligation to pay MEI on the basis that MEI had performed defective work and/or had not completed it works.

A status conference was held on 1 November 2017, and the litigation schedule was set by the court to include the exchange of pretrial reports and documents between the parties. The first hearing will take place in September 2018

26. Operating lease commitments

The Group leases a number of office space, computers, machinery and cars under operating leases. The leases typically run for a period of 10 years, with an option to renew the lease after that date. Lease payments are renegotiated every five years to reflect market rentals. Some leases provide for additional rent payments that are based on changes in local price indices.

i. Future minimum lease payments

\$ millions	31 March 2018	31 March 2017
Less than one year	3.4	7.9
Between one and five years	6.5	5.1
More than five years	5.1	5.9
Total	15.0	18.9

ii.Amount recognized in profit or loss

\$ millions	31 March 2018	31 March 2017
Rent	4.1	4.4
Vehicles	4.2	2.8
Machinery and equipment	9.1	7.6
Total	17.4	14.8

In addition to the related party transactions in the table above, the company incurs certain operating expenses for immaterial amounts in relation to services provided by related parties.

27.1 Demerger of Construction and Engineering business

27.1.1 General

The demerger from OCI N.V. was completed successfully in March 2015, with the listing of shares on Nasdaq Dubai as of 9 March 2015 and a secondary listing on the Egyptian Exchange as of 11 March 2015.

After the demerger, OCI N.V. and OCL each operate as separately listed companies. There are no cross-directorships, other than Jérôme Guiraud who is a non-executive director in both. The senior management teams of OCI N.V. and OCL are different and all agreements between the two companies are executed based on agreed terms.

Services between OCI N.V. and OCL Group entities in the areas of accounting, treasury, information technology, etc, are payable on a costplus basis.

OCL and OCI N.V. are party to continuing commercial arrangements. The existing commercial arrangements were entered into on agreed terms and are not materially different from the terms on which OCL has contracted with other customers. The most relevent are listed below:

27.1.2 Conditional sale agreement

On 5 February 2015, OC IHC 4 B.V. (a subsidiary of OCL) and OCI MENA B.V. (a subsidiary of OCI N.V.) entered into an Agreement for the Conditional Sale and Purchase of the Share Capital of Construction Egypt. Under the Conditional Sale Agreement, OCI MENA B.V. has agreed to sell to OC IHC 4 B.V. all of the shares it will receive as a result of the Egypt Demerger. These shares (the Construction Egypt Shares) will be shares in an Egyptian joint stock company (Construction Egypt) which, as a result of the Egypt Demerger, will hold the construction projects and construction business of Orascom Construction Industries S.A.E in the Middle East and North Africa which, in order to comply with local law and regulation, cannot be transferred to OCL prior to completion of the Demerger. The transfer of the Construction Egypt Shares will be conditional on the completion of the Egypt Demerger, the approval of Egyptian Financial Supervisory Authority ("EFSA") regarding the issue of the Construction Egypt shares to OCI MENA B.V. and incorporation of Construction Egypt. In addition, OCI MENA B.V. commits to appoint management personnel in the construction operations, such personnel to be nominated by OC IHC 4 B.V.; to appoint accounting personnel responsible for the preparation of the carve out financials of the construction operations, such personnel to be nominated by OC IHC 4 B.V., and to vote on the board of directors of Orascom Construction Industries S.A.E. in matters related to the construction operations based on the recommendation of OC IHC 4 B.V. The Conditional Sale Agreement also provides for the economic benefits/liabilities of the Construction Egypt Shares including the underlying Relevant Construction Projects (together with the right to any dividends) to pass from OCI MENA B.V. to OC IHC 4 B.V. with effect from the date of the Conditional Sale Agreement as if such shares had been in existence since 30 September 2014. This transfer of economic benefit will remain in force until the earlier of completion of the Egypt Demerger and transfer of the Construction Egypt Shares to the Company and completion of all of the Relevant Construction Projects, while any new awards are sought through whollyowned subsidiaries of OCL.

27.1.3 Tax indemnity agreement

On 6 February 2015, OCL and Orascom Construction Industries S.A.E. (a subsidiary of OCI N.V.) entered into a tax indemnity agreement which sets out the obligations of the parties in respect of the tax claim lodged by the tax authorities in Egypt relating to the sale of the Orascom Construction Industries S.A.E. is cement business to Lafarge SA in 2007. The parties have agreed that, to the extent that any liability is incurred by Orascom Construction Industries S.A.E. in relation to the Tax Claim (including the costs of dealing with the Tax Claim), this will be shared between the parties on a 50%/50% basis. In addition, to the extent that any recoveries, including interests, are made in relation to the Tax Claim, these will be shared between the parties on a 50%/50% basis (excluding the amount of EGP 2.5 billion for which it was announced that the rights will be transferred to Tahya Misr social fund in Egypt).

27.1.4 Construction contracts

A commercial relationship between OCI N.V. and OCL will remain on-going in respect of the construction of two projects for the fertilizer business on agreed terms. Orascom E&C USA (subsidiary of OCL) is:

- party to an Engineering, Procurement and Construction (EPC) contract in respect of the Iowa Fertilizer Company (IFCo), a 2 million metric ton per annum (mmtpa) fertilizer and industrial chemicals greenfield plant under construction for OCI N.V. in Iowa, USA. Under the terms of the EPC contract, the new plant will utilize proven state-of-the-art production process technologies to produce between 1.5-2 million metric tons per year of ammonia, urea, urea ammonium nitrate (UAN) as well as diesel exhaust fluid (DEF), an environmentally friendly fuel additive; and
- party to an EPC contract for the construction of a methanol plant at Beaumont, Texas, USA for Natgasoline LLC. The plant is expected to

have a capacity of up to 5,000 metric tons per day (tpd), equivalent to approximately 1.75 million metric tons per annum (mtpa).

As part of the demerger of the Orascom Construction Group, OCI N.V. and Orascom Holding Cooperatief U.A., a company that is part of OCL, entered into a letter agreement in relation to the construction contracts entered into between companies within the fertiliser business of OCI N.V. (Fertilizer Business) and companies within the construction business of OCI N.V. (Construction Business). The agreement provides that if the Construction Business incurs costs, expenses or liabilities under the Contracts or for other works and services performed or to be performed for the Fertilizer Business, which are not otherwise reimbursable to the Construction Business under the terms of the Contracts and which exceed the amounts that will, in aggregate, have been and will be payable to the Construction Business under all of the Contracts (the excess being referred to as the Aggregate Group Shortfall), OCI N.V. will pay an amount equal to the Aggregate Group Shortfall. The amount payable by OCI N.V. to the Construction Business under the agreement is capped at USD 150 million. This amount has been paid by OCI N.V. in the third quarter of 2015.

On 25 November 2016, OCI N.V. and Orascom E&C USA, the EPC contractor of Iowa Fertilizer Company LLC ("IFCo") have signed a settlement and acceleration agreement. The agreement is to address outstanding claims between IFCo and Orascom E&C USA, and provide for additional consideration of up to USD 200 million to ensure commercial operations in the second half of 2017. USD 170 million has been paid before 2016 year end.

27.2 OCI Foundation and Sawiris Foundation

The OCI Foundation invests company resources in educational programs that improve the communities in which the company operates. OCI has cultivated strong ties with several leading universities, including the University of Chicago (Onsi Sawiris Scholars Exchange Program), Stanford (The American Middle Eastern Network Dialogue) and Yale (Master of Advanced Management program and Global Network for Advanced Management program).

Furthermore, the Sawiris Foundation for Social Development also provides grants to fund projects implemented by charitable organizations, educational institutions, local government and private business.

28. Remuneration of the Board of Directors (Key management personnel)

During the 3 months period ended 31 March 2018, we considered the members of the Board of Directors (Executive and Non-executive) and the senior management to be the key management personnel as defined in IAS 24 'Related parties'. The total remuneration of the key management personnel amounts for the 3 months period ended 31 March 2018 to an amount of around USD 2.5 million.

Subsequent to the period-end the Board of Directors has proposed a dividend of USD 0.26 per share, which is to be approved by the shareholders at the Annual General Meeting on May 2018.

Furthermore, OCL has various holding companies in the Netherlands and the countries it operates in.

Independent Auditors' Report on Review of Condensed Separate Interim Financial Statements

To the Shareholders of Orascom Construction Limited

Introduction

We have reviewed the accompanying 31 March 2018 condensed separate interim financial statements of Orascom Construction Limited ("the Company"), which comprises:

- the condensed separate statement of financial position as at 31 March 2018;
- the condensed separate statements of profit or loss and other comprehensive income for the three-month period ended 31 March 2018;
- the condensed separate statement of changes in equity for the threemonth period ended 31 March 2018;
- the condensed separate statement of cash flows for the three-month period ended 31 March 2018; and
- notes to the condensed separate interim financial statements.

Management is responsible for the preparation and presentation of these condensed separate interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these condensed separate interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Orascom Construction Limited Independent Auditors' Report on Review of Condensed Separate Interim Financial Statements 31 March 2018

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 31 March 2018 condensed separate interim financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

The notes on pages 7 to 25 form an integral part of these separate interim financial statements.

Notes

(forming an integral part of these separate financial statements)

1 Legal status and principal activities

Orascom Construction Limited ("the Company") is a Company limited by shares, incorporated and registered in the Dubai International Financial Centre on 18 January 2015. The Company is dual listed on NASDAQ Dubai and the Egyptian Stock Exchange. The registered address of the Company is P.O. Box 507031, Dubai International Financial Centre, Dubai, United Arab Emirates.

The principal activity of the Company is holding investments.

The Company has 100 percent interest in Orascom Holding Cooperatief U.A. which is the parent company of other subsidiaries operating in the construction sector.

During 2017, the Company invested in 100 percent shares of Orascom Holding Limited.

2 Basis of preparation and change in accounting policies

Statement of compliance

These separate financial statements have been prepared in accordance with the International Accounting Standard ("IAS") 34, Interim Financial Reporting.

Separate financial statements of the Company

The Company acts as the holding company for its subsidiaries. The Company and its subsidiaries are collectively referred to as "the Group". These separate financial statements present the financial performance and position of the Company only and do not include the operating results and financial position of its subsidiaries. In these financial statements, the investments in subsidiaries are stated at cost less provision for impairment losses (refer accounting policy on impairment) in accordance with International Accounting Standard 27 *Consolidated and Separate Financial Statements*. In order to have a fuller understanding of the results of operations, financial position, changes in equity and cash flows, the consolidated interim financial statements of the Group for the three month period ended 31 March 2018 issued separately on 21 May 2018 should be referred to.

Basis of measurement

These separate financial statements have been prepared under the historical cost basis.

Functional and presentation currency

These separate financial statements are presented in US Dollars ("USD"), which is the Company's functional currency.

Use of estimates and judgments

The preparation of these separate financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

Notes (continued)

2 Basis of preparation change in accounting policies (continued)

Use of estimates and judgments (continued)

These estimates and associated assumptions are based on historic experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgement about the carrying value of assets and liabilities that are not readily apparent from the other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of assumptions, estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the separate financial statements are discussed in note 16.

Change in accounting policies

Except for the change below, the Company has consistently applied the accounting policies as set in note 3 to all period presented in these separate financial statements.

The Company has adopted the following new standard, with the initial date of application of 1 January 2018.

IFRS 9 Financial Instruments

Classification of financial assets and financial liabilities

IFRS 9 includes three principal classification categories for financial assets: measured at amortised cost, FVOCI and FVTPL. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. IFRS 9 eliminates the previous IAS 39 categories of held-to-maturity investments, loans and receivables, and available-for-sale financial assets.

For an explanation of how the Company classifies and measures financial assets and accounts for related gains and losses under IFRS 9, please refer accounting policy on financial instruments included in note 3.

IFRS 9 has not had a significant effect on the Company's accounting policies for financial liabilities.

Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' model. The new impairment model applies to financial assets measured at amortised cost, debt investments at FVOCI and lease receivables. Under IFRS 9, credit losses are recognised earlier than under IAS 39. Refer accounting policy of financial instruments included in note 3.

Notes (continued)

3 Significant accounting policies

Investment in subsidiaries

Subsidiaries are entities controlled by the Company. The company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Investment in subsidiaries is stated at cost less any provision for impairment.

Share premium

Share premium is the excess amount received over the par value of the shares. Incremental costs directly attributable to the issue of new shares are recognised in equity as a deduction, net of tax, from the proceeds. When ordinary shares are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is recognised as a deduction from 'Reserves'. Repurchased shares are classified as treasury shares and are presented in 'Reserves'. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in 'Reserves', and the resulting surplus or deficit on the transaction is presented in share premium.

Finance income

Finance income includes interest charged on loans due from related parties and net foreign exchange gain. Interest income is recognised as it accrues, using the effective interest rate method.

Finance expense

Finance expense include interest incurred on loans due to related parties, net foreign exchange loss and bank charges. Interest expense is recognised as it accrues, using the effective interest rate method.

Financial instruments

Financial assets and liabilities – Recognition and initial measurement

The Company recognizes a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument.

A financial asset or financial liability (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus or minus, for an item not at Fair Value through Profit or Loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue of the financial asset or liability.

Classification – Financial assets

On initial recognition, a financial asset is classified as measured at amortized cost; Fair Value through Other Comprehensive Income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. The classification of financial assets is based on the business model in which a financial asset is managed by the Company and its contractual cash flow characteristics.

Derivatives embedded in contracts where the host is a financial asset are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

Notes (continued)

3 Significant accounting policies (continued)

Financial instruments (continued)

Classification – Financial assets (continued)

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income (OCI). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI are measured at FVTPL. This also includes all derivative financial assets.

On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Subsequent measurement – financial assets

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses (see accounting policy on impairment below). Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on de-recognition is recognized in profit or loss.

Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On de-recognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Notes (continued)

3 Significant accounting policies (continued)

Financial instruments (continued)

Subsequent measurement – financial assets (Continued)

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

Classification and subsequent measurement – Financial liabilities

The Company classifies all financial liabilities as subsequently measured at amortised cost. Subsequent to the initial recognition, these financial liabilities are measured at amortized cost using effective interest rate method.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or realise the assets and settle the liabilities simultaneously.

De-recognition

Financial assets are derecognized if the Company's contractual rights to the cash flows from the financial assets expire or if the Company transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset. Financial liabilities are derecognized if the Company's obligations specified in the contract expire or are discharged or cancelled.

Impairment

Financial assets measured at amortized cost, contract assets and debt investments at FVOCI are assessed for impairment using 'expected credit loss' (ECL) model. Under IFRS 9, loss allowances are measured on either of the following bases:

- 12- month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- lifetime ECLSs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured as 12-month ECLs:

• Bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Company has elected to measure loss allowances for trade receivables at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Notes (continued)

3 Significant accounting policies (continued)

Impairment (continued)

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is more than 90 days past due.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Presentation of impairment loss

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognized in OCI, instead of reducing the carrying amount of the asset.

Impairment losses related to trade and other receivables, including contract assets, are presented separately in the statement of profit or loss and OCI. Impairment losses on other financial assets are presented under 'finance costs'.

Impairment on non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash generating unit is the smallest identifiable asset group that generates cash flows that are largely independent from other assets and groups. Impairment losses, if any, are recognised in the profit and loss.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and deposits with maturities of three months or less from the acquisition date (original maturity) that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of its short-term commitments.

Notes (continued)

3 Significant accounting policies (continued)

Provisions

A provision is recognised in the statement of financial position when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Foreign currencies

Transactions denominated in foreign currencies are translated into USD at exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to USD at the exchange rate at the reporting date. Non-monetary assets and liabilities, denominated in foreign currencies, which are stated at historical cost, are translated to USD at the foreign exchange rates ruling at the date of the transaction. Realised and unrealised exchange gains and losses arising on translation are recognised in the profit and loss.

Property and equipment

Items of property and equipment are measured at cost less accumulated depreciation and any impairment loss. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes cost of material, direct labour, other directly attributable costs incurred to bring the asset ready for its intended use, cost of asset retirement obligations and any capitalized borrowing costs.

When parts of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment. Any gain or loss on disposal of an item of property and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss. Subsequent expenditures are capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Company. Ongoing repairs and maintenance costs are expensed as incurred.

Depreciation

Items of property and equipment are depreciated on a straight line basis through profit or loss over the estimated useful lives of each item, taking into account any residual values. Items of property and equipment are depreciated from the date that they are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

Life (months)

28

Furniture and fixtures

Operating leases

Leases in which a significant portion of the risks and rewards incidental to ownership are retained by the lessor are classified as operating leases. Payments made by the Company under operating leases (net of any incentives received from the lessor) are charged to the statement of profit or loss on a 'straight-line' basis over the period of the lease.

Notes (continued)

3 Significant accounting policies (continued)

New standards and interpretations not yet effective

A number of new standards and amendments to standards are effective for annual periods beginning on or after 1 January 2018 with earlier application permitted. The Company does not plan to adopt these standards early. The new standards which may be relevant to the Company are set out below.

IFRS 16 Leases

IFRS 16, published in January 2016 replaces the previous guidance in IAS 17 Leases. Under this revised guidance, leases will be brought onto companies' balance sheets, increasing the visibility of their assets and liabilities. It further removes the classification of leases as either operating leases or finance leases treating all leases as finance leases from the perspective of the lessee, thereby eliminating the requirement for a lease classification test. The revised guidance has an increased focus on who controls the asset and may change which contracts are leases. IFRS 16 is effective for annual periods beginning on or after 1 January 2019.

4 Financial risk management and capital management

Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Company's management has the overall responsibility for the establishment and oversight of the Company's risk management framework and is responsible for developing and monitoring the Company's risk management policies.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations which arise principally from the Company's receivables and loans due from related parties. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each of its related parties.

The Company establishes an allowance for impairment that represents its estimate of losses in respect of amount due from related parties. The main components of this allowance are specific loss components that relates to individually significant exposures and a collective loss component established for group of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets. The Company's cash is placed with an international and local banks of good repute.

Notes (continued)

4 Financial risk management and capital management (continued)

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to accounts payable, loans due to related parties and amounts due to related parties. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Market rate risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to the changes in foreign exchange rates. The principal currencies in which these transactions primarily denominated are Egyptian pound and Euro.

Price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of change in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market. The Company has no significant exposure to price risk.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the net finance cost of the Company. The Company has exposure to interest rate risk on loans due from and loans due to related parties on which interests are charged at agreed upon rates.

Capital management

The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in the light of change in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend paid to shareholders or issue new shares.

Fair value

The fair value of the financial assets and liabilities of the Company approximate their carrying values as at the reporting date.

Notes (continued)

14 Operating lease commitments

The Company as a lessee

The Company operates from lease hold premises which typically run for a period of one year with an option to renew the lease after that date. The lease rentals are usually renewed to reflect market rentals.

The future minimum lease payments under the current operating lease agreement are as follows:

	Three month period ended	
	31 March 2018 31 March 201	
	USD	USD
Within one year	95,000	228,000

15 Financial instruments

The financial assets of the Company include cash at banks, loans due from related parties and amounts due from related parties. The financial liabilities of the Company include accounts payable, loans due to related parties and amounts due to related parties. Accounting policies for financial assets and liabilities are set out in note 3.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	31 March 2018 USD	31 December 2017 USD
Loans due from related parties Due from related parties	186,564,486 452,556	185,299,030 334,868
Cash at banks	1,142,313	2,034,292
		187,668,190

Management believes that the loans and the amounts due from related parties are fully recoverable and hence, no provision for impairment is required as at 31 March 2018. The Company's cash is placed with banks of repute.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased/ (decreased) net profit by the amounts shown below. This analysis assumes that all other variables remain constant:

	31 M 100 bp increase USD	March 2018 100 bp decrease USD
Variable rate instruments	(584,160)	584,160
	31 Dec 100 bp increase USD	ember 2017 100 bp decrease USD
Variable rate instruments	(578,538)	578,538

Currency risk

The Company's exposure to foreign currency risk is as follows:

	31 March 2018		31 December 2017	
	Euro	Egyptian pound	Euro	Egyptian Pound
Cash at banks Loans due from related parties Loans due to related parties	692 (13,785,749)	1,006 554,138,910 -	708 (13,141,973)	- 616,876,991 -
	(13,785,057)	554,139,916	(13,141,265)	616,876,991

Sensitivity Analysis

The following foreign exchange rates are applied by the Company during the period:

	Average	Spot	Average	Spot
	rate	rate	rate	rate
	2018	2018	2017	2017
1 Euro	1.2250	1.2324	1.1317	$1.2005 \\ 0.0563$
1 Egyptian pound	0.0566	0.0566	0.0563

Currency risk (continued)

Sensitivity Analysis (continued)

A 100 basis points strengthening/ (weakening) of the Egyptian Pound and Euro against USD at reporting date would have increased/ (decreased) the net profit by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant:

	31 March 2018	31 December 2017
	USD	USD
Euro	(169,887)	(157,760)
Egyptian pound	313,643	347,302
	143,756	189,542

16 Significant accounting estimates and judgements

The Company makes estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Impairment of investment in subsidiaries

The Company determines whether investment in subsidiaries is impaired on an annual basis. This requires estimation of the "value in use" of the cash generating units. Estimating a value in use amount requires management to make an estimate of the expected future cash flows from the cash generating unit and also to choose a suitable discount rate in order to calculate the present value of these cash flows.

Impairment losses on receivables

The Company's credit risk is primarily attributable to its loan receivable from related parties and due from related parties. In determining whether impairment losses should be reported in the profit and loss, the Company makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows. Accordingly, an allowance for impairment is made where there is an identified loss event or condition which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

Going concern assumption

The Company's management has performed a preliminary assessment of the Company's ability to continue as a going concern, which covers a period of twelve months from the reporting date, based on certain identified events and conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as going concern.

The Company's management has prepared its business forecast and the cash flow forecast for the twelve months from the reporting date on a conservative basis. On the basis of such forecasts, the Company's management is of the opinion that the Company will be able to continue its operations for the next twelve months from the reporting date and that the going concern assumption used in the preparation of these separate financial statements is appropriate. The appropriateness of the going concern assumption shall be reassessed next year.

Notes (continued)

17 Comparative figures

Certain comparative figures have been reclassified or regrouped, wherever necessary, to conform to the presentation adopted in these separate financial statements.

18 Subsequent events

Subsequent to the period-end the Board of Directors has proposed a dividend of USD 0.26 per share, which is to be approved by the shareholders at the Annual General Meeting on May 2018.

The shareholders of the Company at the Extraordinary General Meeting (EGM) held on 9 May 2018, approved the resolution passed by the Board of Directors for the reducing the share premium of the Company with USD 281.3 million.
